## Kevin Dunn International Film Maker and & Speaker

For the past three years, international filmmaker and guest speaker Kevin Dunn has travelled to four countries, filming powerful testimonials from those most affected by 'assisted dying' laws: the elderly and marginalized; those who live with disabilities and patients with mental illness. He's interviewed patients, doctors, lawyers, caregivers, philosophers and journalists who have seen the inherent danger in giving physicians - or anyone for that matter - the legal right to end the life of another human being. More importantly, Kevin's work underscores the need for each of us to become a 'prophet of hope' in the lives of those around us.
