

**ST EDMUND'S
COLLEGE**
CANBERRA · EST 1954

A group of young men, likely a sports team, are huddled together on a green grass field. They are wearing white athletic uniforms with blue horizontal stripes on the sleeves and shorts. The words 'ST EDMUND'S' are printed in blue on the back of their shirts. Some players are wearing protective headgear, suggesting they are in a contact sport like rugby or soccer. The background is a blurred green field.

Basketball

Basketball has recently moved to one season in winter similar to other winter sports rather than the two seasons running all year round. The school aims to provide an appropriate level of competition for each student with teams entered in most divisions across all age groups. The local competition sees students compete against other private schools as well as clubs in the ACT. Staff and parents coach the teams, providing development and enjoyment for students.

Cricket

St Edmund's College has teams entered in every age competing in the ACT Cricket Junior Competition against local schools and clubs. Competitive games are spread across the weekend with games taking place on Friday night for ungraded younger teams, Saturday morning for Division 1 teams, and Sunday morning for Division 2 teams. Volunteers, including parents, students and staff coach the teams, providing development and enjoyment for students.

Dragon Boating

Dragon Boating racing is a summer sport consisting of a crew of 22 students: 20 paddlers, a drummer and a sweep. The St Edmund's Dragon Boat team, named 'Saints', compete in a number of events throughout the season, both locally and interstate. Details of regattas will be distributed prior to each event, outlining specific details such as venues, times and the costs involved.

The students have the ability to paddle with the students from St Clare's College in some events which enables us to participate in mixed team races.

Mountain Biking

Students bring bikes to school on Thursday morning where they are stored for the day. Students are taken to Mt Stromlo or Mt Majura in the afternoon by the College bus. Ride duration at both locations is about 1.5 hours and difficulty varies depending on rider experience. Emphasis is on developing rider skill, safety and participation. Students are returned to the College by 6pm. There will be the opportunity to participate in some weekend rides and Interschool Competitions depending on student interest and availability. This activity operates year round but does depend on availability of the College bus and the weather from week to week.

Rugby Union

Rugby Union is the biggest sport at St Edmund's College with a strong history going back into the early days of the College. Over the years many Australian School students and Wallabies have been produced on the back of strong results in the local competition and NSW based Waratah Shield competition.

All matches take place on a Saturday with an equal amount of home and away games against local schools, clubs and some clubs based locally in NSW.

Snow Sports

The St Edmunds Snow Sports program runs from the end of Term 2 through to the end of Term 3. Our first Sunday day trip will be scheduled for the last weekend in Term 2. At the start of Term 3 the College offers places to the Southern NSW and ACT Interschool Snow Sports Championships. This is a 3 day snow trip with each student required to enter a minimum of two events across the Championships. All students attending the Championships will stay in school booked accommodation in Jindabyne for the duration of the event. After the Championships, the College will aim to offer day trips on every second Sunday. More information about the day trips will be provided at the start of each season.

Please note: The Snow Sports Co-curricular option is open to all students at the College from Year 7-12; however, students from primary years attending either the day trips or the Interschool Championships must be accompanied by a parent or guardian.

Age Availability

Year 7 - 12

Musical / Cabaret

Each year St Edmund's creates a production that alternates between the Musical and Cabaret format. The college has put on some fantastic performances over the years and this Co-curricular is one of the two that we offer in conjunction with St Clare's students. Students will be assigned to roles within the performance that are appropriate for their ability. The productions incorporate music, dance, drama and technical stage production. Rehearsals take place after school and sometimes during school in the lead up to the performance.

Chess Club

Students of all ages are welcome at Chess Club. The club assists students in improving problem solving skills through online chess puzzles. They also participate in sit down games against each other. Chess is a game which helps teach problem solving, strategic thinking and other skillsets which are useful for a student's education. Camaraderie is often developed from relationships developed through the games as well.

Debating Club

At least one side from every Year group in the Secondary school are nominated into various age divisions of the ACT Debating Competition. The College supports teams from years 6, 7, 8, 9 and Year 10, complimented by our senior sides. Students are required to prepare and present a major oral presentation (debate) each week during the course of two, six week seasons. During Semester 2, Year 5 students may also be invited to represent the school in the fictional words competition. Throughout both semesters students develop their confidence and ability to compete against a range of school sides from the region and are encouraged to debate with passion and courage of their convictions.

Duke of Edinburgh

The Duke of Edinburgh award is an opportunity for students to embrace a philosophy of 'experimental learning' which is a process of making meaning from direct experiences. To earn an Award each student must learn a skill, improve their physical well-being, volunteer in their community and experience a team adventure in a new environment. The staff coordinator will oversee student's efforts in each of these areas while providing opportunities throughout the year to go on hikes. On these adventures students will be able to learn new skills and on the way more about themselves.

Japanese - Australia Culture Club

The Japanese – Australia Culture Club allows students to experience and learn about Japanese culture with various hands-on activities such as origami crafting, cooking, educational games, manga/anime creation and calligraphic drawing. Students will be engaged in an authentic cultural discovery by comparing their culture to Japanese culture. This Co-curricular activity also allows the students to be actively involved in school-based events such as our sister school visit to the College and related cultural exchange programs as main assistants and leaders. No language proficiency is required.

STEAM

Science, Technology, Engineering, Arts and Mathematics also known as STEAM is held for seniors on Wednesday afternoons and for juniors on Thursdays. Students are provided with opportunities to develop their knowledge and skills in areas that are of particular interest to them. These may include:

- Working with drones
- Programming computer games
- Programming robots
- Working with Arduinos and circuits
- 3D modelling
- Large scale projects including building an electronic bike.
