Stationery Requirements

YEAR 11 & 12

Bring Your Own Device (BYOD)

St Edmund's College is a BYOD school. Students are expected to make efficient and effective use of ICT by using technology in positive and constructive ways throughout class time.

The device must meet specific requirements in order to ensure that it is compatible with the College's wireless infrastructure. There is also some required software, but this can be downloaded for fire. Students are eligible to download Office 365 as part of the College's Microsoft agreement.

Find out more about our BYOD Program here: https://sec.act.edu.au/academic/device-program/
